Wed, 05 Dec 2018 20:06:00 GMT Keeping Up with KLA - KLA Healthcare Consultants - Many of you have probably heard of the "alkaline diet". There are a few different versions of the acid-alkaline theory

circulating the internet, but the basic claim is that the foods we eat leave behind an "ash" after they are metabolized, and this ash can be acid or alkaline (alkaline meaning more basic on the pH scale). According to the theory, it is in our best interest to make sure ... The Acid-Alkaline Myth: Part 1 | Chris Kresser - Anesthesia is a combination of the endpoints (discussed above) that are reached by drugs acting on different but overlapping sites in the central nervous system. General anesthesia (as opposed to sedation or regional anesthesia) has three main goals: lack of movement, unconsciousness, and blunting of the stress response. In the early days of anesthesia, anesthetics could reliably achieve the ... Anesthesia - Wikipedia -
