Wed, 05 Dec 2018 18:33:00 GMT Ordinary and Partial Differential Equations - A to Z Directory - Depending upon the domain of the functions involved we have ordinary differential equations, or shortly ODE, when only one variable appears (as in equations (1.1)-(1.6)) or partial differential equations, shortly PDE, (as in (1.7)). From the point of view of the number of functions involved we may have
