planning for rural resilience coping with climate change and energy

06:28:00 GMT Practices | Climate-Smart Agriculture Guide - 1. Introduction. In this review article, we look at adaptation to climate change through the lens of development economics. Since the development literature has firmly established the role of weather risk as a source of income volatility for the poor, and climate change is expected to increase this risk, we review the range of risk-coping mechanisms available to poorer households, with a focus ...
